Preparation for an internship or research stay (BPSA)

- 1.) Preliminary considerations/ definition phase
 - → What do I want to do? Internship or research? Collection of ideas
 - → Why do I want to do this? Clarify interests and goals
- 2.) Planning phase
 - → Research: Obtain information, discuss with friends and caregivers
 - → Draw up project plan:
- → Write down goal and subgoals and discuss (if possible).
 - Means of implementation?
 - Infrastructure on site?
 - How long can/will I do the internship/study visit?
 - What costs will I have?
 - What do I have to/can I prepare before departure (research, contacts...)
 - Which people/institutions/partners are important for my project?
 - What can the schedule for the stay look like?
 - → Realistic planning:
 - Is the project adapted to the country?
 - Is the time sufficient?
 - What are the costs?
- → "Stand on at least 2 legs" → Alternative "project" up your sleeve
- → Submit application to Stube Sachsen

2.1) Internship

- → Discussion with supervisor
- \rightarrow Obtain information on which companies are possible \rightarrow Write to companies, contact

them

2.2) Research

- → Write idea concept (and possible alternative) for supervisor
- → Discuss concept with supervisor
- → Contact and obtain information from:
 - → Universities on site
 - → International development cooperation organizations
 - → German development cooperation organizations
 - → Organizations on site

3.) Implementation and stay in the home country

3.1)	Professional
	Contacting company, university, organizations, etc.
	→ Visiting institutions dealing with the subject e.g. ministries, nat. and intern. Organizations, consultants, etc
	→ Adapting the project on site to local conditions.
	→ Interim check: am I achieving my goals?
	→ Investigate possibilities for professional integration Private
3.2)	Private → Family, friends, personal, social, economic, and political changes changes
3.3)	Back in Germany → Evaluation of the results with supervisor and fellow students

→ Preparing a report and a presentation for STUBE (8 weeks after the stay)
